This presentation gives you an awareness of real life situations and the pervasive reach of cyberbullying into your student's life. You will walk away with tools to address cyberbullying/bullying and ways to educate both youth and parents about cyberbullying issues.

- Understand why adult intervention is of vital importance
- Learn responses that support your students in cyberbullying/bullying situations
- Gain important information and knowledge to share with your students
- How cyberbullying takes shape
- Real life examples
- Psychological harm
- Recognizing the warning signs
- Unique characteristics of cyberbullying
- How to respond and help the victim of cyberbullying
- Strategies to empower and engage bystanders

Research continues to show that school staff are often unaware of the extent and frequency of bullying incidents and it's easy for adults to downplay the seriousness of bullying incidents that do occur. Research also shows that rates of bullying drop significantly when all staff members are able to identify the signs and agree to intervene consistently. The following presentations give educators a clear awareness of what cyberbullying is and specific prevention and response strategies to draw on.

SPEAKER · COUNSELOR · WORKSHOP FACILITATOR
